The project is completed by a beautiful shared swimming pool with sunbathing area. The building will be constructed in energy class A3 with excellent construction, plant and material finishes. Within the project, we present a penthouse, located on the second floor, complete with livable covered terrace and large sun terrace. Continuing through a convenient hallway, we find the sleeping area consisting of a single bedroom, a bathroom with shower, a master bedroom complete with bathroom inside and a spacious room ideal for use as a storage room-laundry room. Going along the staircase, located on the terrace, we reach the large solarium characterised by the beautiful panoramic view of the lake and equipped with predisposition for a jacuzzi bath as well as a covered area ideal for the setting up of an outdoor kitchen.
