76 mq

### DESCRIPTION:

A short distance from the lake, in a convenient position for services and the main road networks, located in a recently developed residential area, we propose an elegant and modern upcoming construction, consisting of 12 units and developed on three above-ground floors in addition to sun terraces and a basement for garages. The project is completed by a large pool area consisting of a children's pool and an adult pool in addition to a large sunbathing area. The building will be constructed in energy class A3 with excellent construction, plant engineering and finishing materials. The project consists of two-room and three-room flats with one or two bathrooms. In this page we present one of the units located on the first floor, consisting of a bright living area with open kitchen and direct access to the large covered terrace, a convenient hallway, a double bedroom, a bathroom with shower and a second spacious bedroom directly connected to the living area. Possibility of purchasing, in the basement, a convenient garage. Excellent solution as a first or second home and also as an investment. Large possibility of customisation and choice of finishes. We remain at your disposal for further information.
